

CHRISTIAN BROTHERS' HIGH SCHOOL LEWISHAM
BRING YOUR OWN DEVICE EQUITY POLICY

Rationale

The Christian Brothers' High School Lewisham Bring Your Own Device (BYOD) program, like all BYOD programs in an education setting, inevitably imposes a financial cost on students and their families in supplying a device. At the same time, the Christian Brothers' High School Lewisham BYOD program can only function if all students have access to technological resources in all their classes. Christian Brothers' High School Lewisham aims to ensure equity when it comes to having access to the same learning outcomes for all our students. The purpose of the BYOD Equity Policy is to establish the equitable framework for the BYOD program for all students, irrespective of their families' financial means.

Objectives

1. To achieve objective (1) of the Christian Brothers' High School Lewisham BYOD policy, being to facilitate and promote the bringing of a computing device to school by all students in Years 5 - 12 for use in their education.
2. To ensure equity in the BYOD program and its implementation.
3. To ensure all students have access to appropriate technological resources in their classes.
4. To provide a framework through which family requests for assistance can be managed consistently.

Actions

a. Christian Brothers High School Lewisham

Christian Brothers High School Lewisham will:

1. Endeavour to provide personal access to appropriate technology resources to all students operating under the school's Bring Your Own Device program in keeping with the objectives of that policy.
2. Ensure the BYOD Program's Device Specification is designed so that a range of devices in capability and cost are suitable and meet minimum specifications.
3. Assess applications for assistance in meeting the requirements of the BYOD program on a case-by-case basis. Due consideration will be given to all the facts of the matter, including:
 - The level of assistance requested.
 - Any existing student assistance
 - The Year of the student.
 - The subjects the student undertakes.
 - The technology already available to the student at school and at home.
4. Consult with the parent/carer in making determinations as to what form any assistance will take.

5. Consider a range of alternatives for providing device access for students, including:

- Priority or reserved access to desktop computers in computer labs or the Waterford Learning Centre during class time, free periods, before or after school or during breaks.
- Loan of a laptop or other device for a particular period or class.
- Loan of a laptop or other device for a particular day.
- Recurrent daily loan of a laptop or other device.

6. Make a written agreement between the school, student and parent/carer that specifies the arrangements agreed upon or determined for facilitating access to technological resources.

7. In some circumstances, agree to loan a laptop or other device to a student overnight, over a weekend or over a holiday period.

8. Provide a protocol for ensuring priority or reserved access to desktop computers where this access is considered appropriate.

9. Provide a protocol for signing out and signing back in a laptop or other device from the IT Help Desk and follow up any cases where the loaned device is not returned in accordance with the agreement.

b. Students and Parents/Carers:

1. Consider your options for the purchase or lease of equipment that meets the Device Specification. Christian Brothers' High School Lewisham will endeavour to make a broad selection of devices in a range of price points match the Specification.

2. If you believe you are unable to provide a device that meets the specification:

- a. Make an application in writing to the Principal, (or the Principal's delegate) or make an appointment to speak with the Principal and indicate you require assistance in addressing the school's Bring Your Own Device program.
- b. The school will liaise with you, your son and his teachers to identify the most appropriate way to address the issue and ensure he has appropriate access to the technological resources of his peers.
- c. You will be asked to make an agreement with the school that confirms the alternative arrangements made for your son/ward's access to technological resources.

3. In substitution of a personal device the school will consider options including, but not limited to:

- Priority or reserved access to desktop computers in computer labs or the Waterford Learning Centre during class time, free periods, before or after school or during breaks.
- Loan of a laptop or other device for a particular period or class.
- Loan of a laptop or other device for a particular day.
- Recurrent daily loan of a laptop or other device.
- Make a device available for a semi-permanent loan.
